RoomBridge Quality Report

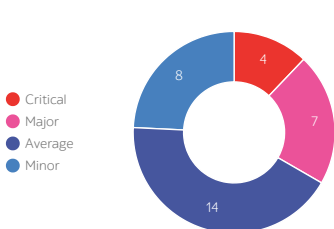

Product version: 1.0

General quality analysis

The overall quality of the application can be estimated as **Low**. At this stage of testing, we do not recommend to release this version of the application as great number of defects was found. For example, The issue ([QATC-924872](#)) concerns Functional: No verification email sent after registering with a valid email. Another notable defect ([QATC-925343](#)) is that 'Manage Listing' and 'Preview Listing' buttons redirect to the same page. These issues have a significant negative impact on the overall quality of the application. The total number of defects is **33**. Functional defects prevail, **4** of them have the Critical severity and **7** defects gain the Major severity. The majority of defects is opened for modules "[Your Listings](#)." and "[Sign up & List your Place](#)". A detailed quality analysis is presented below.

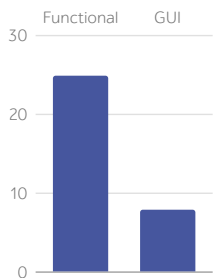

Detailed quality analysis

The total number of defects by severity

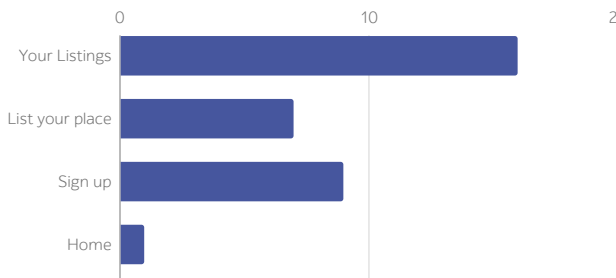

The chart shows the statistics of defects by the degree of the negative impact they have on the application. Almost **33%** of issues have **Critical** and **Major** severity. **Minor** (**24%**) defects. **Average** (**42%**) defects prevail.

The total number of defects by error type

The chart presents the ratio of defects by platform. For **Functional** **25 issues** were found, which is almost 51% more compared to **GUI** (**8**).

The total number of defects by components

The chart represents defects quantity on separate modules. The majority of issues are found in "**Your Listings**" module (**16**), in "**List your place**" & "**Sign Up**" module has (**7**) & (**9**) issues, and in "**Home**" (**1**) issue was found..

Quality of separate modules

Module	Quality	Comments
Your Listings	• Low	In this section 16 defects were discovered during the testing, 2 of them have priority Critical. The most important defects Date range cannot be selected by clicking a begin date and an end date (QATC-925478) and 'Pricing and Terms' is inaccessible when Entire home/apartment option is selected (QATC-925444). Other than that there were several Major issues found in this module too. Which really impacts the quality of this module.
Sign Up	• Low	In general, the quality of the module can be estimated as Low. The overall number of defects in this module: 9. 1 of them have priority Critical and others Major. They affect the quality of the module vastly. For example, Clicking the "Connect with Facebook" button triggers a popup displaying an error message. (QATC-924855), "Why connect with Facebook?" button redirects to homepage and displays error message (QATC-100128).
List your place	• Low	7 defects were opened in this module. The most significant defect here is a critical defect, Entering 259 characters in the description field triggers an error and crashes the application (QATC-925137).
Home	• High	This module doesn't contain any serious defects. One issue was opened for this section. 'Company Name' is displayed instead Room Bridge in browser tab (QATC-925127).that concludes all the bug.
